

DCS531160M Built-in Oven

EXPECT EVEN, EVERY TIME

The golden brown on a potato gratin. The deep crust on a fillet of beef. The moist depths of a rich chocolate cake. Achieving even results time after time demands precisely controlled heat, distributed consistently throughout your oven. Unlike standard ovens, the SurroundCook oven's advanced fan technology ensures that every part of your dish is getting exactly the heat it

Double oven - double dishes for double delicious

Effortlessly cook two meals at once. With the Double Oven you have the choice of fan cooking, conventional cooking and grilling. Giving you two separate areas where you can choose to bake or roast two dishes at the same time

Heat activated catalytic cleaning

The catalytic lining absorbs the grease from cooking and is activated by regular heating to 220°C. The grease residue is oxidised leaving the catalytic surface clean.

More Benefits :

- Easily control the oven settings with the EXPLore LED Display.
- The clever Hot Air convection system ensures hot air circulates evenly throughout the oven cavity, for a cooking process that is faster, and more
- An efficient way to grill, toast, crisp or brown
