

Get an efficient clean for your clothes, automatically

Zanussi's built-in washing machine is designed to run quietly, fit in with other appliances, and clean clothes thoroughly. It comes with the AutoAdjust feature, which weighs each load and adjusts the cycle to use the most efficient settings. Making every wash as economical as possible.

Product Benefits & Features

Save time and energy with AutoAdjust

The AutoAdjust feature weighs what you put in the machine, adjusting the duration of the cycle and the amount of water and energy used accordingly. So you get the most economical wash, every time.

The simple and efficient daily programme

Our daily programme is just the right way to clean your small, everyday loads. It's specially designed to effectively clean cottons and synthetics, delivering excellent results in great time. Simply load the laundry, and the machine will do the rest.

You pick the cycle duration with Flexitime

Wash clothes on your own terms. The Flexitime feature means that you can adjust the length of a full cycle, so laundry is ready when you are.

A quieter way to clean clothes

Our built-in washing machine is designed to keep the noise low when running a cycle, so you can enjoy a more peaceful home.

Set a cycle for when it suits with DelayStart

The DelayStart function lets you pre-set a cycle to begin in 3, 6 or 9 hours time. So your clothes are washed when it's convenient for you.
